Finance student seeking Financial Analyst, FP&A, or Corporate Finance internships with experience in financial modeling, valuation, forecasting, and data analysis

Education

Rutgers Business School

Bachelor of Science in Finance | Class of 2028

Relevant coursework: Managerial Accounting, Statistics, Financial Management, Management Skills

Relevant Experience

Private Equity Intern - Project Destined | Remote | Oct 2025 - Dec 2025

- Conducted financial analysis of commercial real estate assets, evaluating projected cash flows, operating expenses, and return scenarios to support investment recommendations.
- Earned professional completion certificate demonstrating proficiency in analytical frameworks and industry concepts.

Equity Research Analyst - Summitgate Equity Research | Aug 2025 – Dec 2025

- Conducted financial statement analysis, developed five-year revenue and expense projections, and analyzed industry trends and key financial metrics to evaluate profitability, forecast performance, and support investment recommendations.

Projects

FP&A Dashboard | Power BI

- Designed an interactive Power BI dashboard with KPIs, monthly trends, and executive financial reporting and created data visualizations to support budgeting, forecasting, and performance analysis.

Financial Statement Analysis | Excel

- Analyzed Apple's 2023-2025 financial statements and evaluated profitability, liquidity, leverage, and efficiency using financial ratios.
- Developed an investment recommendation supported by financial statement and ratio analysis.

DCF Valuation Model | Excel

- Built a five-year DCF valuation model forecasting revenue, EBIT, free cash flow, and enterprise value.
- Performed sensitivity analysis using WACC and terminal growth assumptions to estimate intrinsic value.
